

Curriculum Vitae

Name: **Eli Israeli**
Address: Ben Hillel 6/4 St. Tel Aviv, Israel
Mobile No.: 972 54 9151556
Date of Birth: 05 June 1974
Family status: A single
E-mail Address: elisraeli@gmail.com

Work Experience

Lecturer, consulting & Mentoring [15 – today],

Mentor at Inno-Negev, A3i and AtoBe Innovation center, Lecturer for renewable energy and Creative & design thinking at SCE, Moderator students in Afeka Engineering college.
Development concepts and design prototype by Creative and critical thinking implementation.

Senior PV Engineer, at Siemens, Energy Sector, IL [11 – 14].

General design for power plants, inverters integrating. PV panels positioning plan, Electrics plans. Simulations by PVsyst. Representing on technical aspects for large scale fields. Pre-sale projects design and supervision including timetable. Monitoring system with Siemens Germany.

Head of PV Engineering, at Shikun & Benui Solaria, IL [06 –10].

PV Engineer, responsibility for rooftop design, mounting system, advising and support for EPC and solar integrators, SMA portal responsibility, monitoring system configuration for the client and IEC requirements. Simulations and drawings by A/C, Survey and system feasibility reports.
Trouble shooting resolving, technical support and Meeting with the end clients.

Mechanical Project Engineer, Bet Shemesh Engines, a jet engine system factory, IL [01 – 05].

Responsibilities on jet engines by digital configuration retrofit on timetable. Engine inspection in cell running, included technical data and performance analyzed, plane engineering documents according to producer instructions & specific customer requirements. An Electromechanical, involvement. Assembly & disassembly route cards plane for depot operators.

Education

MBA, Open University, specialization in strategy and marketing. [03 – 06].

Mechanical Engineer, Energy Specialization, Afeka by Tel Aviv University, [97 – 00].

Degree project: Aeronautics system, included controller's system setting.

MCP & CCNA, Management College, R.L. [05 - 06].

Networking communication system, TCP/IP, LAN/VLAN, planning Hosts net ,VPN base on WAN .Cisco Routers and protocols configuration, HTML, UNIX, XP & Infrastructures Server.

Military Service

Aircraft technician Israel military, Air force [93 – 96].

Professional rank, Assembly & disassembly aviation system accessories.

New soldiers Guidance regarding to aircraft work instructions & non destructive tests.

Software

All office, AutoCAD, PV plant, PVsyst and PVsol .

Languages

Hebrew (mother tongue), English (high level).
